

# Frederick County, MD – Countywide

FEMA's Risk Mapping, Assessment and Planning (Risk MAP) Program helps strengthen communities by identifying actions they can take now to reduce their hazard risk, enhancing local planning, improving outreach through risk communications, and increasing local resilience to natural hazards. Below is an overview of some key items identified during the Changes Since Last FIRM impact assessment. Insurance-related data is current as of October 2018.

The information presented below are estimates only.

## KEEPING COMMUNITIES INFORMED: Your Risk MAP Timeline

## TAKE ACTION: Next Steps

Your Hazard Mitigation Plan has been approved through **April 17, 2022**, and your updated flood hazard data can help implement your plan. Some projects you identified to reduce flood risk were:

- Maintain all County bridges and culverts on a yearly basis.
- Develop structural corrective action plans for frequently flooded roadways.
